Cork Services

Dear Gary,

We are writing to thank you for your visit to our training centre. Your presentation went down really well with our trainees stimulating discussion and project work on animal care and welfare.

It was great the way you pitched your presentation so well considering the diverse range of learning abilities in our centre. Well done also on dealing so well with some of the more challenging questions.

Please find enclosed a thank you card the service users made themselves during their computer sessions.

Yours sincerely,

Deirdre Madden
