Dear Mr. Trimble,

I am writing to you on behalf of the staff, especially the staff of the Animal Care course, at St. John's Central College to let you know how much we appreciate your organisation for partaking in our work experience programme over the last few years.

We have received great feedback from the students who have completed work experience in your premises. You have treated them very professionally and have gone to great lengths to make the work experience both relevant and interesting. This, in turn, assists them in completing the portfolio part of the module.

Through these work experience portfolios we can also see what a great job you are doing in caring for all the animals in your organisation.

Thanking you once again for your continuing cooperation and looking forward to working with you in the future,

Yours sincerely,
Catherine Cashin,

Class teacher.
